SUPPLIERS TO THE PETROLEUM & CHEMICAL INDUSTRIES

Phone: 64 (09) 414 1119 Fax: 64 (09) 414 1120 www.pes.co.nz

JL9111

Hand Rotary Pump, round body

No. JL9111-1

- Same as No. JL9111, but with 3-piece suction tube instead of one single long suction tube

No. JL9111-2

JL9114

Hand Rotary Pump, aluminum

No. JL9114

- Same as No. JL9111-1, but with the aluminum alloy body and long lasting Neoprene seal
- Pumps gasoline, diesel, kerosene, lube-oil, fuel oil and hydraulic fluid
- Aluminum head for greater corrosion resistance and longer life
- With 3-piece suction tube
- Suction distance up to 5' and lift distance up to 16'

JL9115

Hand Rotary Pump, PVC

No. JL9115

- Same as JL9111-1 but PVC material
- With Teflon seal and Teflon vane
- With 3-piece suction tube

PETROLEUM EQUIPMENT SERVICES LTD

SUPPLIERS TO THE PETROLEUM & CHEMICAL INDUSTRIES

JL9228

Quart Stroke Lever Pump

No. JL9228

- Flow rate: 10 gallons per minute /one quart per stroke
- Telescopic metal suction tube with 2" bung adapter
- 8' hose with nozzle
- Built in fuel nozzle holder
- Accessible fuel strainer
- Lever can be locked with padlock(padlock not included)

JL9229

Pint Stroke Lever Pump

No. JL9229

- Pumps most liquids up to SEA 90
- Includes telescopic metal suction tube, additional one viton O-ring as an optional replacement accessory when requested
- Suit 60 or 200/220 litre drums
- With handy bung-opener on pump head

No. JL9229-1

- Same as JL9229 but including on 6' PVC hose with nozzle

JL9223

Lever Active Pump

No. JL9223

- Flow rate: 1 gallon per 4 strokes
- Die-cast zinc alloy body
- Telescopic 480 to 900mm metal suction tube suit 15, 30 or 55 gallon drums
- With two types spout: curved spout and high angle spout

PETROLEUM EQUIPMENT SERVICES LTD

JL9514

JL9511-0

Semi-Rotary Pump

- Double-acting with cast-iron body and brass vane
- Suitable for a wide variety of liquids including water, water based solutions, all petroleum products, non-corrosive solvents, ect.

No. JL9510 (K00)

- Flow rate: 8.5L/min; inlet/outlet: 3/8"

No. JL9511 (K0)

- Flow rate: 15L/min; inlet/outlet: 1/2"

No. JL9512 (K1)

- Flow rate: 25L/min; inlet/outlet: 3/4"

No. JL9513 (K2)

- Flow rate: 35L/min; inlet/outlet: 1"

No. JL9514 (K3)

- Flow rate: 45L/min; inlet/outlet: 1-1/4"

No. JL9515A (K4)

- Flow rate: 70L/min; inlet/outlet: 1-1/4"

No. JL9515 (K5)

- Flow rate: 85L/min; inlet/outlet: 1-1/2"

No. JL9516 (K7)

- Flow rate: 90L/min; inlet/outlet: 2"

No. JL9511-0 same as JL9511

No. JL9512-0 same as JL9512

No. JL9513-0 same as JL9513

No. JL9514-0 same as JL9514

No. JL9515-0 same as JL9515

- But with accessories of 2" BSP retention adapter, suction tube, 2m discharge hose and steel nozzle suit 200/220 litre containers.

PETROLEUM EQUIPMENT SERVICES LTD

SUPPLIERS TO THE PETROLEUM & CHEMICAL INDUSTRIES

Phone: 64 (09) 414 1119 Fax: 64 (09) 414 1120 www.pes.co.nz

JL9611

9611-2

T-handle Metal Pump

No. JL9611

- Made of steel material
- Suit 200/220 litre containers
- 840mm suction tube
- 20 L/min

No. JL9611-1

- Same as No. JL9611, but made of high quality 316 stainless steel with Teflon seals and Teflon suction tube, allows for pumping of much more aggressive chemicals.

No. JL9611-2

- Mini T-Handle Lifting S.S. Pump
- Especially in high quality 316 stainless steel with Teflon seals and Teflon suction tube, allows for pumping of much more aggressive chemicals.

JL9612

Plastic Lifting Pump

No. JL9612

- For use in conjunction with various chemicals, solvents anti-freeze
- Polypropylene with 2" BSP adapter to suit 60 or 200/220 litre containers
- With viton seals
- Two-piece suction tube 940mm
- 20 L/min

JL9613

Plastic Siphon Pump

No. JL9613

- For use in conjunction with various chemicals, solvents anti-freeze
- Economic version, polyethylene, suit 60 or 200/220 litre containers
- Two-piece suction tubes 885mm and 1m discharge hose
- 20 L/min

No. JL9613-1

- Middle type

No. JL9613-2

- Small type

JL9614 JL9614-1

JL9615 JL9621

JL9623

T-Handle Nylon Pump

No. JL9614 20L

No. JL9614-1 60L

- Similar as plastic pump JL9612, but with special piston for siphon function and with large T-handle
- With PVC hose, steel nozzle, steel suction tub, handle and pump body made of Nylon material

No. JL9615

- Similar as plastic pump JL9614, but with special piston for siphon function

Plastic Hand Lift Pumps:

No. JL9621

- White Nylon Lift Pump, Viton seals, Rod in Chrome Plated Mild Steel, suction tube in 1000mm

No. JL9621-1

- White Nylon Lift Pump, Viton seals, Rod in Chrome Plated Mild Steel, suction tube in 500mm

No. JL9621-2

- White Nylon Lift Pump, Teflon seals, Rod in Stainless Steel, suction tube in 1000mm

No. JL9621-3

- Black Nylon Lift Pump, Teflon seals, Rod in Mild Steel with Nylon sleeve, suction tube in 500mm

No. JL9621-4

- Black Nylon Lift Pump, Teflon seals, Rod in Mild Steel with Nylon sleeve, suction tube in 1000mm

No. JL9622

- White PP Lift Pump, NBR seals, Rod in Chrome Plated Mild Steel, suction tube in 1000mm

No. JL9622-1

- Black PP Lift Pump, Teflon seals, Rod in Mild Steel with PP sleeve, suction tube in 500mm

No. JL9622-2

- Black PP Lift Pump, Teflon seals, Rod in Mild Steel with PP sleeve, suction tube in 1000mm

Plastic Pail Pump

No. JL9623

- Made of PVC and Nylon, fits 5-gallon pails
- 5 feet of clear discharge hose
- Bottom of pump includes a hose barb and 3/4" NPT threads
- Delivers approximately 8 ounces per stroke

JL5114

JL5211

JL5212

Automatic Nozzles

No. JL5111 3/4" inlet with swivel

No. JL5111-1 1" inlet with swivel

- Fuel-dispensing with an automatic safety shut off for wet-hose use with electrical operated petrol dispensing pumps
- Approved for all gasoline and diesel fuel in a pressure range of 0.5-3.5 bar
- Opens automatically when the pressure exceeds 6 bar.
- Material: aluminum body

No. JL5112 3/4" inlet

- Auto shut off sensibility: 0.1 second
- Standard pressure: 0.2 kg/cm²
- Nozzle spout diameter: 20mm
- Flow rate: with spout: 20mm 18-60 L/min;
- Material: aluminum body

No. JL5113 1" inlet

- For heavy duty, high flow truck, bus and fleet service
- High flow refueling nozzle with an exclusive "satellite" feature
- Closes automatically
- Flow rate: 80-120L/min
- Material: aluminum body

Oil Nozzle

No. JL5114, aluminum

- Control valve for diesel; max: 100 L/min.;
- With a 20 mm hose tail adapter G 1" female rotating swivel
- Die cast nozzle with an integral trigger release mechanism

Oil Bar Valve

Art. No. JL5211

- For use in conjunction with oil bar in chrome plating
- Tap close immediately as soon as the operator releases the tap handle
- Adapter: G 1/2" male or 1/2" NPT male (on request)

○ NW: 12mm

Art. No. JL5211-1

- Same as JL5211 but with long Z type inlet tube and 3/4" NPT threads

Oil Spigot

Art. No. JL5212

- For dispensing into measures and containers in zinc plating
- Threads directly into the fluid outlet of air operated pumps with 3/4" NPT threads provides an easy method

Art. No. JL5212-1

- Same as JL5212 but with material of S.S.

Oil Nozzle

No. JL5115, plastic

- Control valve for diesel; max: 80 L/min
- With brass thread inlet G 1" female

No. JL5116, plastic

- Control valve for diesel; max: 80 L/min
- With hose tail connector to suit 20mm hose

Oil Control Valves

No. JL5117

- 1/2" connection
- With swivel

No. JL5117-1

- Same as No. JL5117
- With a rigid spout and non drip tip

Swivels for automatic nozzle

No. JL5145 3/4" - 3/4" swivel

No. JL5146 3/4" - 1" swivel

No. JL5147 1" - 1" swivel

No. JL5148

- Z-type swivels (45 degree swivels) 3/4" - 3/4"

No. JL5149

- Z-type swivels (45 degree swivels) 1" - 1"
- Main body zinc alloy and male threads part brass

No. JL5148-1

- Z-type swivels (45 degree swivels) 3/4" - 3/4"

No. JL5149-1

- Z-type swivels (45 degree swivels) 1" - 1"
- Main body aluminum alloy and male threads part brass

Breakaway Connectors for automatic nozzles

No. JL5150

- with 3/4" - 3/4" thread

No. JL5151

- with 1" - 1" thread

Indent item

Motorcycle Pneumatic Lift Platform

No. JL6901

- With extension plates and two side plates
- Capacity: 500 kg(1100Lb)
- Max/min height: 778/245mm
- One unit per wooden case, sizes of wooden case: 2100 X 630 X 400mm,
- Gross/net weight: 245/210 kg

No. JL6901-1

- Same as JL6901 but without extension plates

No. JL6901-2

- Same as JL6901 but without two side plates

No. JL6901-3

- Same as JL6901 but without extension plates and two side plates

JL0422 JL0423 JL0424

Air Maintenance Unit

(Air Filter/Regulator/Lubricator/Gauge)

- Used to regulate air pressure for efficient operation of air operated devices.
- With a pressure regulator and gauge, moisture separating filter and lubricator. Regulating air pressure from 0.5 to 10 bar(max. pressure 16 bar). 1/4" BSP female in/outlet.
- Low torque non-rising pressure locking adjustment knob
- Complete with 150psi gauge
- Adjustable range - 5 to 125psi

No. JL0421

- M5 female in/outlet

No. JL0422

- 1/4" BSP female in/outlet

No. JL0423

- 3/8" BSP female in/outlet

No. JL0424

- 1/2" BSP female in/outlet
