

Manual action pumps, suitable for transferring fluids, characterized by ease of installation, simplicity of operation, dependability and economy.

Heavy-Duty Rotary Hand Pump

- Cast aluminum pump provides smooth, continuous transfer of medium viscosity liquids, as well as oil, kerosene and diesel fuels at up to 10 gallon / 38L per 100 revolutions
- Pump easily mounts to a standard drum with 2"
- Built-in check valve.
- Includes 3/4" x 8' / 2.5m hose and a 40" / 1035mm telescoping suction pipe
- 1" inlet, 3/4" outlet
- **Item No.: 17230380**

Hand Fuel Pump

- Pump easily mounts to a standard drum with 2"
- Transfer of light oil, kerosene and diesel fuel at up to 24 gallon/ 90L per 100 strokes
- Built in check valve
- Includes 3/4" x 8' / 2.5m hose and a 40" / 1035mm telescoping suction pipe
- 1" inlet, 3/4" outlet
- **Item No.: 17210920**

Anti-Corrosion Hand Rotary Pump

- With viton seals, stainless steel fastener 3-piece dip tube. Fits from 60-220L drums
- Pump body made of PPS
- Dip tube and spout manufactured from polypropylene
Compatible fluids: Water, AdBlue, Diesel, Bio Diesel,
- Heating Oil and many chemicals
- Flow Rate: 30L per 100 revolutions
- **Item No.: 17230300**

Hand Drum Pump

- Pumps diesel, petrol, kerosene and lubricating oils up to SAE30
- Supplied with a 2m/6.5ft. delivery hose and dispensing spout, and 40" / 1035mm three pieces threaded suction tube
- Built-in nozzle holder
- 50mm(2") threaded bung adaptor
- Flow rate: up to 10 gal. (40L) per min., Or 1 quart (1L) per storke
- **Item No.: 17210960**

Item No.	Flow Rate (Gallon/Liter Per 100 Revolutions)	Inlet (Inch)	Outlet (Inch)	Package Dimension (cm)	Weight (kgs)
17230380	10/38	1	3/4	20x18x55	8
17210920	24/90	1	3/4	20x18x55	9
17230300	8/30	1	3/4	57x18x16	5
17210960	25/96	1	1	52x28x22	7
